Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- **I need a fast and easy solution for this problem**
- **I want something affordble and reliable**
- **Can someone help me figure this out ?**

THINKS

- **Will this product actully work?**
- **I hope I don't weste my money on this?**
- **Is there a simpler way to get this done**

PERSONA NAME
(Role / User Type)

DOES

- **Search online for reviews and alternatives**
- **Asks friendss and colleagues for recommendation**
- **Compare feature and prices before buying**

FEELS

- **Frutrated by current delays and complication**
- **Ovrewhelmed by too many complex choices**
- **Relived when finding a simple guide**
